HI!

I am a Graphic Designer from Port-au-Prince (Haiti) currently based in Miami. I love design. I am absolutely fascinated by its ability to constantly evolve.

I have 4 years of experience working as a freelance designer as well as working in a company. I focus on corporate identities, package design and website design.

My goal is to deliver the most efficient solution for my client's visual communication with their target market via different platforms and media which I will achieve through my expertise in branding and a variety of graphical and web technologies.
